I am tiny egg on a leaf, I'm very small and so hard to see
But, I am growing and changing each day
Soon I'll be hatching to my next stage.
Now I'm a caterpillar chewing so much
I chew my shell and leaves I just munch
The bigger I grow my skin sheds away
Then on a branch I make the shape of a "J"
I'm growing it's true ? I'll be a butterfly soon
Chorus I'll fly, I'll fly, flutter my wings all around in the sky
I'll fly, I'll fly ? one day I'll be a beautiful butterfly
Now I'm snug in a safe place
A hard chrysalis protects me each day
Inside I sleep, change and grow
And dream of all the places I'll go
Now I'm a butterfly with beautiful wings
I stretch them out so they'll dry for me
I move and pump my wings up and down
Getting ready to fly all around
I'm happy to be ? a butterfly flying free
Repeat Chorus 2X

I need the water and sunlight to grow
I reach up high for the sunshine above
I feel the rain falling to fill me up
Now I'm a flower with friends all around
All different colors that cover the ground
Red ones and pink ones, yellow and blue
Swaying together as breezes blow through
Chorus I am a flower, I am a flower
A flower that's ready to grow

(repeat)

I am a flower and I'm growing up
I drink the water that flows from my cup
Water is flowing and rolling and flowing to me
Flowing and rolling to me.

Repeat Chorus

I am a flower, and I'm glad to be
Living together in this world so free
I let my seeds fly and fall all around

Activity - Learning about odd or even numbers can be fun with this creative bluesy rock song. Have fun & rock with those Real Smart Snakes. Try some visuals with odd & even numbers and children can move to action words.

I know some real smart snakes that I'd like you to meet
You might think they're kinda scary, but they're very friendly
When they heard that I was learning my numbers at school
They started making these shapes and they looked pretty cool
They made a 1, 3, 5, 7, 9
It was amazing to me, they made 1, 3, 5, 7, 9
They really made them for me
Then they wiggled and slithered around
They spelled out a word right there on the ground
These are ODD numbers, ODD numbers
They really did make, these are ODD numbers, ODD numbers
Those are real smart snakes
And these real smart snakes started moving some more
They were sliding and gliding now all over the floor
It was neat how they all worked together so well
They could make any numbers, they even could spell
They made a 2, 4, 6, 8, 10
It was amazing to me, they made a 2, 4, 6, 8, 10
It was so easy to see
Then they wiggled and jiggled so smooth
Then they spelled out a word, it was really so cool
These are EVEN numbers, EVEN numbers
They really did make, these are EVEN numbers, EVEN numbers
Those are real smart snakes
Now I get it, 1, 3, 5, 7, 9 those are ODD numbers
2, 4, 6, 8, 10 those are EVEN numbers
I can say them again and again, because I had some help from my
special friends
Those are real smart snakes, those are real smart snakes
